“ Standard “, “ Universal “, “ Premium - external opening “,
“ Premium - internal opening”.

2 types of door leaves: Aluminum - 40, 45 mm, Wooden door leaf - 40, 45 mm.

Designers department

Detailed study of individual projects by the company's design department (concealed doors + wall panels, use of non-standard door hardware, furniture design).

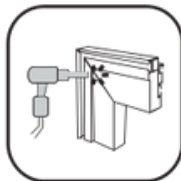

Designer doors

Possibility of manufacturing doors with individual finishes according to standard projects of designers and architects (glass, UV printing, stone veneer, laminate, HPL panels, Smart Glass, etc.)

High-tech equipment

A variety of CNC machines ensure precision cutting, perfect cutting and drilling, which guarantees 100% quality.

Welded joints

Door leaves on an aluminum door frame are assembled using joints welding, which prevents deformation of the leaf.

Invisible door straightener

All door leaves* are equipped with Invisible door straightener that allows you to control and adjust the geometry of the door leaf.

Complete set**

The doors are supplied with adjustable concealed hinges Anselmi (Italy), magnetic locking mechanism AGB (Italy), Q-Ion seal (Great Britain) and installation kit.

Soundproofing doors

Possibility of manufacturing doors with increased noise insulation.

Pre-assembled

Delivery of door frames with spacers within 2 weeks for the first stage of installation (installation of a concealed door frame). The final hanging and adjustment of the door leaf is carried out after the completion of repair and construction works.

Doors from the warehouse

The dispatching terms - till 2-3 working days (On stock doors).

Shipping by the company's transport

Delivery is carried out by the transport of the company.

Certified products

Products of the company are certified according to the international standard ISO 9001.
